SUBJECT INDEX

Academy for Health, for health services research, 261
Acquired immunodeficiency syndrome. *See* Human immunodeficiency virus infection
Activities of daily living
  assistance with, at end-of-life, in home care vs. hospital inpatients, 81
  in confusion, 209
  problems with, as weight loss predictor, in nursing home residents, 249
Adolescents, HIV infection risk reduction interventions for, 97
African-Americans, HIV infection research in, retaining women participants for, 35
Age. *See also* Elderly persons
  vs. heart failure knowledge, 200
Agency for Health Research and Quality, 261
Aggression, in confusion, 209
AIDS. *See* Human immunodeficiency virus infection
Alcohol use, reduction of, interventions for, in Mexican-American women, 137
Alzheimer's disease, theory-based interventions for, 87
Ambulation, after hip replacement, factors affecting, 19
American Organization of Nurse Executives, poster presentations for 2001, 54
Analgesia, after hip replacement, postoperative walking and, 19
Anesthesia
  for hip replacement, postoperative walking and, 19
  for intravenous cannulation, 189
Antianxiety medication, as weight loss predictor, in nursing home residents, 249
Antibiotics, intramuscular injection of, evidence-based guidelines for, 149
Anxiety
  in colonoscopy, music therapy for, 126
  medication for, as weight loss predictor, in nursing home residents, 249
Arthroplasty, hip, walking after, factors affecting, 19
Assistive personnel, unlicensed, patient identification of, 11
Asthma, partners' view of, 217
Atkins Osteoporosis Risk Assessment Tool, 184
Atrial septal defect, closure of, postoperative care for, 243
Attitudes, of hospital staff, toward elderly persons, 227
Autonomy
  of elderly persons, hospital staff attitudes toward, 227
  of patients, nurse practitioner-physician communication styles and, 60

Balance, in elderly persons, Tai Chi effects on, 235
Bathing, assistance with, at end-of-life, in home care vs. hospital inpatients, 81
Behavior
  in confusion, outcome and, 209
  in dementia, modification, 87
  of hospital staff, toward elderly persons, 227
Berg Balance Scale, for Tai Chi results evaluation, 235
Bilirubin assay, for feeding tube placement determination, 254
Blood flow, to tissue, in surgery, surgical pressure ulcer development and, 163
Blood pressure, in colonoscopy, music therapy effects on, 126

Cardiac arrhythmias, quality of life measurement in, in pediatric patients, 74
Cardiomyopathy, quality of life measurement in, in pediatric patients, 74
Caregivers
  after heart surgery, in women, 118
  titles of, patient identification of, 11
Catheters
  intravenous, locks for, saline vs. heparinized flushing of, for neonates, 28
  urinary, in confusion, 209
Children. *See* Pediatric patients
Children's Heart Health Survey, of New York University, 74
Clinical pathways, for postoperative care, in atrial septal defect closure, in pediatric patients, 243
Cognitive Behavioral Model of Everyday Memory, in elderly persons, 2
Cohen-Mansfield Agitation Inventory, in dementia intervention study, 87
Collaborative care system, for asthma, 217
Colonoscopy, self-selected music during, 126
Communication
  with elderly persons, 227
  between nurse practitioners and physicians, 60
Confusion, behaviors and outcomes in, 209
Congenital heart disease
  palliated, quality of life measurement in, in pediatric patients, 74
  surgical repair of, postoperative care for, 243
Content validation, of Atkins Osteoporosis Risk Assessment Tool, 184
Coordination, of care, for elderly persons, 227
Coronary artery disease, surgery for, women living alone after, 118
Correctional facilities, adolescents in, HIV infection risk reduction interventions for, 97
Corticosteroids, surgical pressure ulcer development and, 163
Cuba, health care in, 111

Death and dying. *See also* Mortality
  dependency during, in home care vs. hospital inpatients, 81
  heart surgery associated with, in women, 118
Decision making, communication for, 60
Deltoid muscle, injection into, evidence-based guidelines for, 149
Dementia, theory-based interventions for, 87
Dementia Mood Picture Test, in dementia intervention study, 87
Demerol, for pancreatitis pain, vs. transdermal fentanyl, 102
Dependency, end-of-life, in home care vs. hospital inpatients, 81
Dignity, of elderly persons, hospital staff attitudes toward, 227
Disaster nursing, 1

Dorsogluteal site, injection into, evidence-based guidelines for, 149
Drug abuse, reduction of, interventions for, in Mexican-American women, 137

Eastern Nursing Research Society, health services research interest group of, 261
Editorials
  disaster nursing, 1
  international partnerships for research, 199
  multidisciplinary and interdisciplinary research, 59
  nursing shortage, 117
Education
  nursing
    American Organization of Nurse Executives priorities for, 54
    in Cuba, 111
    on environmental health, 67
    in Japan, 259
    in Poland, 111
    in Slovenia, 111
  patient
    for elderly persons, 227
    on heart failure, 200
    on HIV risk reduction, 97
    on postoperative self-efficacy, 174
    on risky behavior reduction, in Mexican-American women, 137
Elderly persons
  caregivers' title recognition by, 11
  dementia in, theory-based interventions for, 87
  falls in, Tai Chi effects on, 235
  female, heart surgery in, living alone after, 118
  hospital staff attitudes toward, 227
  memory improvement in, 2
  Nursing Care Quality Initiative for, 48
  surgery for, pressure ulcer development in, 163
  weight loss in, prediction of, minimum data set in, 249
End-of-life dependency, in home care vs. hospital inpatients, 81
Environmental health considerations, in nursing practice, survey on, 67
Exercise
  before hip replacement, postoperative walking and, 19
  Tai Chi, for elderly persons, fear of falling and, 235

Falling
  fear of, in elderly persons, Tai Chi effects on, 235
  risk of, in confusion, 209
Family
  environment of, with asthma, 217
  involvement of, in care of elderly hospitalized persons, 227
Family-Centered Care model, 48
Family-Centered Geriatric Resource Nurses training, 48
Fentanyl, for pancreatitis pain, 102
Flushing solutions, for intravenous locks, saline vs. heparinized, for neonates, 28
Foster Pain Intervention, for postoperative outcome improvement, 174
Functional declinie, in confusion, 209

Gender differences, in heart failure knowledge, 200
Geriatric patients. *See* Elderly persons
Geriatric Resource Nurse model, expansion of, 48
Gluteus maximus muscle, injection into, evidence-based guidelines for, 149
Gluteus medius muscle, injection into, evidence-based guidelines for, 149

Health care
  in Poland, 111
  in Solvenia, 111
Health-related quality of life, in heart disease, in pediatric patients, 74
Health services research, 261
Heart disease
  quality of life measurement in, in pediatric patients, 74
  surgery for
    postoperative care for, in pediatric patients, 243
    women living alone after, 118
Heart failure, patient knowledge about, 200
Heart rate, in colonoscopy, music therapy effects on, 126
Heparin, for intravenous locks, for neonates, 28
Hip replacement, walking after, factors affecting, 19
HIV infection. *See* Human immunodeficiency virus infection
Home care, end-of-life dependency in, vs. hospital inpatients, 81
Hormones, intramuscular injection of, evidence-based guidelines for, 149
Human immunodeficiency virus infection
  in African-American women, research studies of, 35
  prevention of, interventions for, in Mexican-American women, 137
  risk reduction interventions for, in adolescent correctional facility, 97
  in Switzerland, 194
  in Uganda, 194
Hyperactivity, in confusion, 209
Hypoactivity, in confusion, 209
Hysterectomy, preoperative interventions for, in postoperative outcome improvement, 174

Imagery, preoperative teaching of, for postoperative outcome improvement, 174
Immune globulin, intramuscular injection of, evidence-based guidelines for, 149
Incontinence, in confusion, 209
Informational style of communication, between nurse practitioners and physicians, 60
Injections, intramuscular, evidence-based guidelines for, 149
Interdisciplinary research, 59
International columns
  health care in Cuba, 111
  Nursing Care Quality Initiative for hospitalized elders, 48
  nursing in Uganda, 194
  nursing research in Japan, 259
Intramuscular injections, evidence-based guidelines for, 149
Intravenous therapy
  cannulation for, preanesthetics for, 189
  locks for, saline vs. heparinized saline flushing of, for neonates, 28

Japan, nursing research in, 259

Length of stay, after atrial septal defect closure, clinical pathway effects on, 243
Lethargy, in confusion, 209
Licensed caregivers, patient identification of, 11
Lidocaine, for intravenous cannulation installation, 189
Literature reviews, systematic, 52
Longitudinal studies, of HIV infection in African-American women, retaining participants for, 35

Malnutrition
  in nursing home residents, prediction of, minimum data set in, 249
  surgery in, pressure ulcer development in, 163
Mattresses, for surgery, pressure ulcer development and, 163
Memory, improvement of, in octagenarians, 2
Meperidine, for pancreatitis pain, vs. transdermal fentanyl, 102
Mexican-American women, substance use and risky sexual behavior reduction interventions for, 137
Minimum data set, for weight loss prediction, in nursing home residents, 249
Mobility
  in elderly persons, Tai Chi effects on, 235
  postoperative, preoperative interventions for, 174
Mortality
  in confusion, 209
  in intramuscular injections, 149
Multidisciplinary research, 59
Music therapy
  for colonoscopy, 126
  preoperative, for postoperative outcome improvement, 174

National Institute of Nursing Research, 261
Need-Driven Dementia-Compromised Behavior Model, 87
Needles, for intramuscular injections, 149
NEO Personality Inventory, in dementia intervention study, 87
Neonates, intravenous locks for, saline vs. heparinized saline flushing of, 28
New York University, Children's Heart Health Survey of, 74
Nurse practitioners, physicians communication with, 60
Nurse Retention and Quality of Care Act of 2001, 115
Nursing Care Quality Initiative, for hospitalized elders, 48
Nursing home residents, weight loss in, prediction of, minimum data set in, 249
Nursing shortage, 115, 117

Oral temperature, vs. tympanic temperature, in surgical patients, 42
Osteoporosis, risk assessment for, 184
Outcome
  of acute confusion, 209
  postoperative, preoperative interventions for, 174

Pain management
  in pancreatitis, 102
  postoperative, preoperative interventions for, 174
Pancreatitis, pain management in, 102

Pediatric patients
  atrial septal defect closure in, postoperative care for, 243
  heart disease in, quality of life measurement in, 74
Pepsin assay, for feeding tube placement determination, 254
pH, of feeding tube aspirate, for tube placement determination, 254
Pharmacokinetics, intramuscular injections and, 149
Philadelphia Geriatric Center Affect Rating Scale, in dementia intervention study, 87
Physical activity, before hip replacement, postoperative walking and, 19
Physicians
  nurse practitioner communication with, 60
  role of, elderly persons perspective of, 227
PICO acronym, for questions in systematic reviews, 197
Poland, health care in, 111
Pollution, environmental, beliefs about, survey on, 67
Postoperative care, in atrial septal defect closure, in pediatric patients, 243
Postoperative outcome, preoperative interventions for, 174
Preanesthetics, for intravenous cannulation, 189
Preoperative interventions, for postoperative outcome improvement, 174
Preoperative Self-Efficacy Scale, 174
Pressure ulcers, risks for, in surgery, 163
Psychogeriatric Dependency Rating Scale, in dementia intervention study, 87
Psychomotor activity, in confusion, 209

Quality improvement, Nursing Care Quality Initiative for, 48
Quality of care, staffing issues in, 115
Quality of life
  with asthma, 217
  with heart disease, in pediatric patients, 74

Racial factors
  in heart failure knowledge, 200
  in HIV infection research, retaining women participants for, 35
  in substance use reduction, 137
Recreation, for dementia, 87
Relaxation, preoperative teaching of, for postoperative outcome improvement, 174
Research
  African-American women with HIV, 35
  American Organization of Nurse Executives priorities for, 54
  atrial septal defect repair postoperative care, 243
  communication between nurse practitioners and physicians, 60
  confusion behavior and outcome, 209
  continuous tube feedings, 254
  dementia interventions, 87
  end-of-life dependency, 81
  environmental health considerations, 67
  health services, 261
  heart failure knowledge, 200
  HIV risk-reduction interventions, 97
  intramuscular injection, 149
  intravenous cannulation injectable preanesthetics, 189
  intravenous locks for neonates, 28

[Research]
in Japan, 259
memory in octagenarians, 2
multidisciplinary and interdisciplinary, 59
music during colonoscopy, 126
pain management in pancreatitis, 102
partners' views of asthma, 217
patient identification of caregivers' titles, 11
preoperative interventions for postoperative outcome improvement, 174
pressure ulcer risks in surgery, 163
quality of life in pediatric heart disease, 74
staff attitudes toward elders, 227
substance use reduction in Mexican-American women, 137
